Thank you again to Joe and Becky Allen for purchasing the Waverly Farm genetics.
We are excited to watch you continue to breed from them and develop great cows.
Great things will continue from your breeding program and we can't wait to see them
progress. The last load of heifers left last month to their new home in Vermont.

We are glad to know the WF bloodlines will continue here in
Virginia and Pennsylvania as well through our grandchildren.

The future is bright... just different.
